

Padel joins the lineup of leisure activities at Beachcomber hotels

Padel enthusiasts are invited to experience this dynamic sport—whilst newcomers can discover an exciting new activity during their stay in Mauritius. Beachcomber Resorts & Hotels is enhancing its leisure offering with the introduction of padel courts at six of its eight hotels. This exciting addition reinforces the group's family-friendly positioning and its commitment to discovery and adventure.

A stay in Mauritius is all about escape, exploration, and new experiences. Whether guests choose water sports such as sailing and stand-up paddleboarding, or land-based activities such as golf and tennis, Beachcomber hotels offer a wealth of options to entertain guests of all ages. With the introduction of padel, the group invites guests to discover yet another way to make lasting memories together.

Starting 2025, padel courts will be available at six Beachcomber hotels:

- Royal Palm Beachcomber Luxury (from late January 2025)
- Paradis Beachcomber Golf Resort & Spa (from late March 2025)
- Trou aux Biches Beachcomber Golf Resort & Spa (from late February 2025)
- Shandrani Beachcomber Resort & Spa (available since 15 January 2025)
- Victoria Beachcomber Resort & Spa (from late January 2025)
- Canonnier Beachcomber Golf Resort & Spa (from late January 2025)

The padel courts are exclusively reserved for hotel guests. Access is priced at Rs 2,000 per hour per court, with balls available for purchase at Rs 500 per tube (3 balls). Rackets will also be available for use upon request at each hotel.

An offer aligned with Beachcomber's guest-centric vision

The addition of padel courts reflects growing demand from Beachcomber's clientele. According to the International Padel Federation (FIP), 2024 saw a remarkable 30 million padel players worldwide, including 600,000 licensed players—40% of whom are women. Padel's soaring popularity can be attributed to its social nature and accessibility. The sport is notably easier to master than other racquet sports, making it an ideal option for guests looking to try something new and exciting during their Mauritian getaway.

“The introduction of padel at our hotels is a natural step for Beachcomber as we continue to align with global trends and meet the growing expectations of our guests. This dynamic sport perfectly complements our existing leisure offering, encouraging moments of fun, connection, and discovery,” said Jean-Louis Pismont, Chief Operations Officer, at Beachcomber Resorts & Hotels.

Driven by a desire to craft unforgettable stays, Beachcomber places guest experience at the heart of its offering. From learning the art of ravanne drumming to discovering golf or exploring iconic landmarks of Mauritius, every activity is carefully designed to create meaningful moments. With the addition of padel, Beachcomber continues its mission to turn every stay into a collection of cherished memories.

About Beachcomber Resorts & Hotels

Since 1952, Beachcomber Resorts & Hotels has been crafting memorable stays in Mauritius’ most exceptional locations. As a pioneer of Mauritian hospitality, the group’s mission has always been to share the natural beauty of the island and offer its guests unforgettable experiences. Guided by the generosity of its Artisans, Beachcomber’s eight hotels embody this spirit of care and attention to detail.

The group’s eight properties are located along the northern, western, and southern coasts of Mauritius:
